ENERGY EVALUATION EUROPE: LATEST NEWS

We hope everyone is having a great summer. At Energy Evaluation Europe, we have been having a well deserved break after the conference in March, and we're now back and exploring plans for our 2022 conference.

Watch this space for the conference announcement and call for abstracts in Autumn this year!

There is also still time to join the planning committee for the next conference, email hebe@energy-evaluation.org if you are interested.

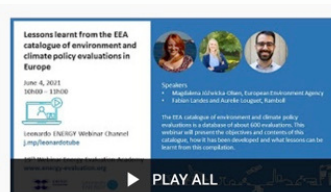

WEBINARS AND RESOURCES

So far this quarter, we have held two webinars with Leonardo Energy. They are both now available to view in the [Energy Evaluation Academy playlist](#) on YouTube.

- **'Tracking energy end-use trends and policy impacts during the Covid-19 crisis'** in collaboration with the International Energy Agency (IEA)
- **'Lessons learnt from the EEA catalogue of environment and climate policy evaluations in Europe'** in collaboration with the European Environment Agency (EEA)

Click [this link](#) to view the playlist now

UPDATES

RESOURCES FROM THE LAST CONFERENCE

Many recordings are now available on our [YouTube channel](#) if you want to catch up on-demand.

The [clickable conference programme](#) is a useful resource to identify sessions you are interested in, and it also has the links to relevant papers!

CONFERENCE PLATFORM ACCESS

If you attended the conference in March, you still have access to the OnAIR conference portal until **24 August**.

Our team would be happy to direct you to useful papers and resources, so feel free to [contact us](#) if you want some help navigating the materials.

UPCOMING EVENTS

WEBINARS: We will email you, and post on our [LinkedIn](#) and [Twitter](#) with future webinars and events, so make sure you are subscribed and following along to be the first to know.

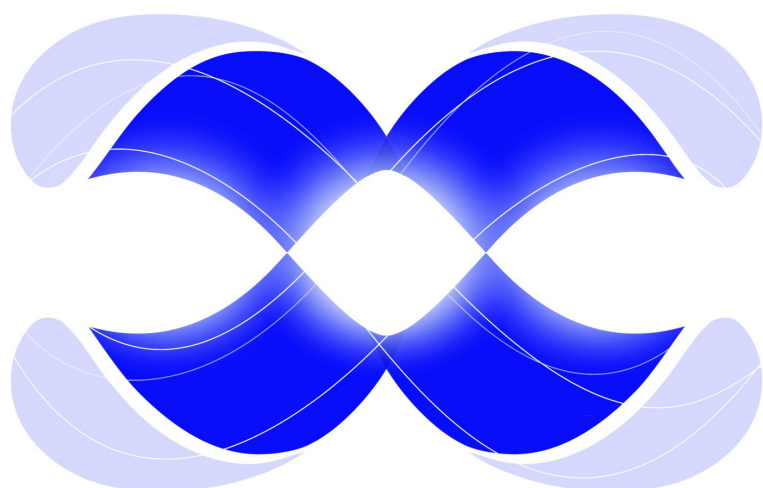

CONFERENCE: Our 2022 conference will be announced along with a call for abstracts in Autumn this year. Watch this space!
